Anoushka Aggarwal

Product Designer I 0-to-1, B2B & Enterprise Products I AI Experiences

anoushkaaggarwal.com aggarwalanoushka02@gmail.com linkedin.com/in/anoushkaa/ +91 78074 69079

Product Designer with 2+ years of experience designing 0-to-1 and enterprise digital products across financial services, healthcare, and climate tech. I translate business, technical, and user needs into scalable product experiences through product thinking, rapid prototyping, and cross-functional collaboration.

Experience

Digital Product Designer - Accenture Song, August 2024 - Present **Pune, India**

- Owned end-to-end product design for FIS's enterprise B2B Agentic AI FP&A dashboard, taking it from MVP prototype to scalable white-label implementations for C-suite users; enabled 25% automation of reporting workflows.
- Redesigned TIAA's complex B2B financial-services workflows across 3 product releases, owning product and build design within an Agile sprint team; led offshore build design, resolved dev queries, and managed trade-offs across 370+ issues with a 95% resolution rate.
- Led a UX audit of 100+ screens for Unilever Vietnam's B2B mobile app, identifying 6 priority findings, all actioned by the client.
- Established an internal UX audit framework adopted across client engagements including KTM and KONE, standardizing design evaluation and delivery.
- Mentored 10 designers across 2 consulting cohorts, supporting project execution, design reviews, stakeholder communication, and professional development.
- Designed and facilitated a Design Thinking workshop for 20+ senior leaders on applying GenAI and intelligent systems to scale delivery across SONG engagements.

Product Design Intern - Studio Carbon, Jan 2024 - June 2024 **Gandhinagar, India**

- Designed and shipped Agtuall's B2B climate-data platform, owning product architecture, shaping features with insurer SMEs, and translating complex data into wireframes, an early design system, and development-ready handoffs; deployed across 15+ countries.
- Led product design for Auskey's remote digital stethoscope application, translating complex medical-practitioner workflows into defined features, user stories, PRDs, and wireframes across 12 feature groups, with competitive research and offline-mode considerations; designs were pushed directly into development and are now live.
- Shaped the product experience for a mental health app in Sierra Leone, designing 60+ screens within low-connectivity, offline, and technical constraints while maintaining a seamless user experience.

Freelance Product & Brand Designer - April 2024 - Present

- Delivered product, brand, and visual design for 8+ clients across interior design, real estate, and EPC.
- Owned packaging, presentations, brochures, invitations, and booklets end-to-end.
- Built repeat clients through timely delivery, including KPIL's annual conclave.

Education

Master's in User Experience Design - MIT Art, Design and Technology, 2022-24 - GPA : 8.3 **Pune, India**

- Awarded Best Project at the Pre-Grad Show for "Tattoos as Biosensors," a speculative design project exploring wearable health technology.

Bachelor's in Interior Design - Manipal University (MSAP), 2018-22 - GPA : 9.1 **Manipal, India**

- Ranked 2nd in the program for two consecutive semesters.
- Elected Head of Graphic Design on the Student Council, becoming the first Interior Design student to hold the role. Led a team of 4 to deliver visual assets for university cultural events.

Skills

Product: Enterprise Product Design, Digital Transformation, B2B Product Design, Usability, User Validation, Iterative Design, Product Discovery

AI: AI-Powered Experiences, Prompt Engineering, Generative AI, AI-Assisted Workflows

Design: Product Design, UX/UI Design, Interaction Design, Human-Centered Design, 0-to-1 Product Design, User Research, Information Architecture, User Journeys, Prototyping, Design Systems, Accessibility (WCAG), Responsive Design

Collaboration: Stakeholder Management, Cross-functional Collaboration, Design Communication, Design Thinking, Agile Product Development, Product Strategy, Product–Engineering Collaboration, Design-to-Dev Handoff, PRDs & User Stories

Tools: Figma, Figma Make, Claude Code, ChatGPT Adobe Photoshop, Jira, Confluence

Languages: English, Hindi

Certifications

AI Fluency: Framework and Foundations: Anthropic

Agents and Workflows: OpenAI

Product Management: An Introduction: IBM

Insurance Industry Foundations: Primerli

Product Strategy Micro-Certification (PSC)™: Product School

Fast Track to Accessibility for Designers: IAAP - International Association of Accessibility Professionals
